

Automation

# Parata Max<sup>®</sup>

## Parata Max

A high-speed solution, Parata Max delivers on efficiency while also ensuring safety and accuracy in every pharmacy setting. **It automates up to 80% of your oral solids** with its ability to support up to 228 DINs.

This fully-automated robot labels, fills, caps and sorts prepared vials into drop-off shelves that can hold up to 132 completed prescriptions. **Simultaneous dispensing and replenishment** allow continuous operation of your pharmacy.

With bottle and cell barcode scanning, Parata Max always dispenses the right drug to keep patients safe. Additionally, Parata counting technology and air-jet cells ensure each count is accurate.

Scan the stock bottle and cell to ensure they match

Replenish while prescriptions are filled

Retrieve the labelled, filled, capped and sorted vials

Advanced technology

Improved efficiency

Accuracy and safety

“Parata Max has been key in growing our business. It makes our bustling pharmacy easier to manage while keeping our operating costs down. Technology will always be part of our business strategy.”

Sean K. Cheverie, Pharmacist & Owner  
Amherst Pharmasave

## Parata Max Benefits

### Advanced Technology

- The only technology that labels, fills, caps and sorts prescription vials
- Smart, two-sided design allows for uninterrupted dispensing during replenishment of vials and caps or medication
- Delivers the fastest, most accurate counting and easiest cell calibration
- Super cells designed for fast-moving drugs hold more than 3 times the inventory in just twice the space of a standard cell

### Efficiency

- Handles up to 80% of your total countable oral solid prescription volume
- Easy to learn and operate, with minimal upkeep required
- On-site cell calibration for maximum efficiency
- Larger cell capacity greatly reduces replenishment frequency

### Accuracy & Safety

- 100% accurate for drug and strength
- Cross-contamination eliminated by filling vials directly from dispensing cells
- Enhanced auditing capabilities through a wide variety of reports
- Ability to secure access to eliminate diversion

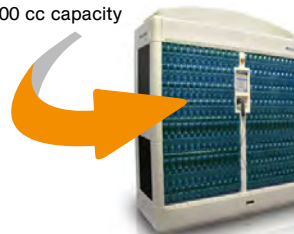

Parata Max® is a registered trademark of Parata Systems LLC.

## Parata Max Specifications

Parata Max	
Dimensions	
Width	202 cm (80")
Height	221 cm (87")
Depth	67 cm (27")
Number of cells	
Configurable	Up to 228 cells
Standard setup	188 standard and 20 super cells
Speed	
Average	128 prescriptions/hr
Electrical requirements	
120V/20A dedicated circuit NEMA 5-20 outlet	

### Inventory side

Up to 228 standard cells, each with 500 cc capacity

### Dispensing side

Drop-off shelves hold up to 132 completed prescriptions

Bins for 13 and 30 dram vials

Bins for 13 and 30 dram caps

Parata Max has achieved GREENGUARD GOLD Certification, ensuring it meets some of the world's most rigorous standards for low chemical emissions. This determines that a product is acceptable for use in environments such as schools and healthcare facilities.

Through our wide array of innovative pharmacy automation solutions and technologies, **McKesson Canada Automation** is helping improve patient care and safety.

**McKesson Canada** is made up of many businesses all serving the health care industry.

Our solutions enable health care service providers to get closer to the millions of patients they serve every single day, while contributing to the quality and safety of care in Canada.
